

## Compact Metering System

### Combination of chemical tank and ready-to-connect metering technology

- ▲ Easy to assemble
- ▲ Compact and variable
- ▲ Capable and economical

The modular system allows the use of various chemical tanks with volumes ranging from 40 to 1000 l. The combination with pumps from our range of ELADOS® EMP metering pumps facilitates exact metering between 0.2 l/h and 120 l/h.

## Compact metering station

- ▲ Modular construction system
- ▲ Available with different pump capacities
- ▲ Adaptable to diverse and also existing batch tanks
- ▲ Wide range of accessories

## Your benefits:

- ▲ Easy and flexible assembly
- ▲ Adaptable to different customer applications
- ▲ Safe metering and handling of liquid chemicals
- ▲ Prepared for the local installation by the customer  
or:  
▲ Factory-made and ready-to-use

## Interested?
