

Connexx

A clever way to tame chemicals!

- ▲ Suction lance integrated in the packaging
- ▲ Simple Click & Plug connector
- ▲ Superior handling safety
- ▲ Safe and reliable dosing of gassing products out of container

CONNEXX

Connexx is a unique solution for safer handling of concentrated cleaning and disinfecting products (e.g. containing Peroxyacetic Acid). This unique concept provides for superior safety and comfort while dealing with chemicals on your production site.

Discharge Unit

- "Empty" level detection
- Alarm functions
- Reliable dosing even of gassing products

Production-Process Safety

- ▲ Continuous dosing even if the connected packaging is reaching "empty" level
- ▲ Automatic switch-over to the full packaging
- ▲ High dosing safety especially for "in-line" applications

Click & Plug Connector

- ▲ Automatic packaging opening
 - On/Off position
- ▲ Tight connection between packaging and discharge unit
- ▲ Self venting connection

Packaging with Integrated Suction Lance

- ▲ Special design for efficient product discharging
- ▲ Eliminates the necessity of a manual container opening
- ▲ Suction lance integrated in the container

Operator Safety

- ▲ Safe and easy operation
- ▲ Reduced risk of direct contact with a chemical product
- ▲ Comfortable discharging even of gassing products

Usage Information

Following products are available with the Connexx System (August 2003)

- P3-oxonia active
- P3-oxonia active 150
- P3-oxysan ZS
